

CGSpace 101

Abenet Yabowork and Peter Ballantyne

20 November 2014

ILRI
INTERNATIONAL
LIVESTOCK RESEARCH
INSTITUTE

Background: Dspace at ILRI

- Established late 2009
- Driven by demands to have all outputs and products available and accessible (Triple A)
- Replacement for:
 - Inmagic document catalogue
 - PDF files spread across the web (many illegal)
 - Home made lists of outputs
 - Manual linking from web sites and blogs etc
- ‘CGSpace’ in 2011

- Dspace 'the' ILRI way to publish on the ILRI web ...
- Gives projects 'archives' and visibility'
- We aim to 'index' everything, wherever published
- We aim to 'publish' as much as we can, with permission
- We decentralise content management: Program teams contribute content; info teams do quality control
- RSS gets content over the web and into mailboxes and onto desktops
- Mainstream, open source solution, with open (OAI) standards and wide support community
- The 'repository' is NOT the value proposition for the scientists ; we sell it as 'publishing'
- It does NOT do all 'library' tasks
- Part of 'being open'

Principles

- Shared technical hosting and support
- Decentralized content management / themed views
- Dublin core metadata fields; some additional default 'cgspace' fields; some extra partner-specific fields [to meet specific centre, crp, reporting needs]
- Some variation in forms of entering some fields (authors, citations); need to correlate with 'cg-core' standards
- Standard submission templates (can be adapted)
- Standard interfaces (within custom themes)
- Enter once, map often
- Some overlapping content – Need to check duplicates
- Extra reporting and stats in dspace; additional in google analytics
- Permanent urls (handles)

Some content management stuff

- Open access / limited access
- ISI journal / non
- Peer review status
- CRP association
- Author affiliations
- BUT
 - Consistent metadata
 - Architecture of collections (and naming)
 - Review and approval workflows
 - Mapping versus submitting workflows
 - Local content changes/errors always reflected at the global level

Getting started

Architecture of communities

- Structure and naming conventions

Think whole platform

Think where content needs to go

Think who submits; who quality checks

Beware organizational changes!

Content management basics

The image shows a screenshot of the CGSpace website. At the top left is the CGIAR logo. The main header reads 'CGSpace Repository of agricultural research outputs'. Below this is an orange navigation bar with 'CGSpace Home'. The main content area is divided into sections: 'Welcome', 'Communities in CGSpace', and 'My Account'. A central white box with a blue border contains a list of tasks for logging in. A large green arrow points from the bottom right towards the 'My Account' section.

CGSpace
Repository of agricultural research outputs

CGSpace Home

Welcome

This is a repository of agricultural research outputs and results from our partners. It indexes reports, articles, press releases, presentations, and more. You can search for a community of your choice; search across the whole site; sign up for alerts; and create or join groups that interest you.

CGSpace is a collaboration of several centers and research programs from the International Livestock Research Institute.

Communities in CGSpace

Distribution License

There is one last step: In order for DSpace to reproduce, translate and distribute your submission worldwide, you must agree to the following terms.

Grant the standard distribution license by selecting 'I Grant the License'; and then click 'Complete Submission'.

By signing and submitting this license, you (the author(s) or copyright owner) grants to the managers of CGSpace (ILRI, ICRAF, CPWF, CCAFS) the non-exclusive right to reproduce, translate (as defined below), and/or distribute your submission (including the abstract) worldwide in print and electronic format and in any medium, including but not limited to audio or video.

You agree that ILRI (on behalf of the CGSpace group) may, without changing the content, translate the submission to any medium or format for the purpose of preservation.

You also agree that ILRI (on behalf of the CGSpace group) may keep more than one copy of this submission for purposes of security, back-up and preservation.

You represent that the submission is your original work, and that you have the right to grant the rights contained in this license. You also represent that your submission does not, to the best of your knowledge, infringe upon anyone's copyright.

If the submission contains material for which you do not hold copyright, you represent that you have obtained the unrestricted permission of the copyright owner to grant ILRI (on behalf of the CGSpace group) the rights required by this license, and that such third-party owned material is clearly identified and acknowledged within the text or content of the submission.

IF THE SUBMISSION IS BASED UPON WORK THAT HAS BEEN SPONSORED OR SUPPORTED BY AN AGENCY OR ORGANIZATION OTHER THAN ILRI OR THE CGSPACE GROUP, YOU REPRESENT THAT YOU HAVE FULFILLED ANY RIGHT OF REVIEW OR OTHER OBLIGATIONS REQUIRED BY SUCH CONTRACT OR AGREEMENT.

ILRI (on behalf of the CGSpace group) will clearly identify your name(s) as the author(s) or owner(s) of the submission, and will not make any alteration, other than as allowed by this license, to your submission.

If you have questions regarding this license please contact the system administrators.

Policies for Item 10568/42338 (ID=43709)

With this editor you can view and alter the policies of an item, plus alter policies of individual item components: bundles and bitstreams. Briefly, an item is a container of bundles, and bundles are containers of bitstreams. Containers usually have ADD/REMOVE/READ/WRITE policies, while bitstreams only have READ/WRITE policies.

You will notice an extra bundle and bitstream for each item containing the license text for the item.

Create collection: Assign roles

Decide
authorizations
and
permissions

CGSpace Home → Collections → Roles

Edit Collection: test

Edit Metadata | Assign Roles | Content Source | Curate

Role	Associated group	
Administrators	none	Create...
Collection administrators decide who can submit items to the collection, edit item metadata (after submission), and add (map) existing items from other collections to this collection (subject to authorization for that collection).		
Submitters	none	Create...
The E-People and Groups that have permission to submit new items to this collection.		
Default read access	Default read for incoming items and bitstreams is currently set to Anonymous.	Restrict...
E-People and Groups that can read new items submitted to this collection. Changes to this role are not retroactive. Existing items in the system will still be viewable by those who had read access at the time of their addition.		
Accept/Reject Step	none	Create...
The people responsible for this step are able to accept or reject incoming submissions. However, they are not able to edit the submission's metadata.		
Accept/Reject/Edit Metadata Step	none	Create...
The people responsible for this step are able to edit the metadata of incoming submissions, and then accept or reject them.		
Edit Metadata Step	none	Create...
The people responsible for this step are able to edit the metadata of incoming submissions, but will not be able to reject them.		

Edit authorization policies directly.

Atmire usage analysis

- Analyses usage of the repository – administrator can choose different dataset options to generate and export tables and graphs.

Atmire usage analysis

Select collection, etc

Usage data

Data/graph for specified period

Atmire content analysis

- Analyses the number of items in the repository on a number of criteria (called datasets)

Eg. growth of repository in a certain time

Atmire content analysis

The screenshot shows the 'admin modules' interface for 'CGSpace Home' with the 'Content analysis' path selected. The main heading is 'Data Source Selection'. It features a 'Primary Dataset:' dropdown menu currently set to 'Time', which is open to show a list of options including 'Time', 'Communities & Collections', 'CCAFS Subject Focus Status', 'WLE Subject Focus Region Focus', 'CPWF Subject Focus CRP focus', 'Biodiversity Subject Focus Date Accessed', 'IWMI Subject Focus', 'CIFOR Subject Focus Country Focus', 'Language', 'ILRI Subject Focus ISI Journal', 'CGIAR (Consortium, Portal, Archive)', 'CGIAR Research Program on Climate Change, Agriculture and Food Security (CCAFS)', 'CGIAR Research Program on Livestock and Fish', 'CGIAR Research Program on Water, Land and Ecosystems (WLE)', and 'CGIAR System-wide Livestock Programme'. Below this is a 'Secondary Datas' section with a list of checkboxes for various research programs and institutes, including Africa RISING, AgriFood Change, Animal Genetics, Biodiversity International, Center for International Forestry Research, CGIAR Challenge Program, CGIAR Collection, CIMMYT, East Africa Dairy Development Project, Feed the Future Innovation Lab for Small-Scale Irrigation, Humidtropics, ICRAF-ILRI Research Methods Group, ICRISAT, IGAD Livestock Policy Initiative, International Center for Tropical Agriculture (CIAT), International Livestock Research Institute (ILRI), International Water Management Institute (IWMI), Livestock and Irrigation Value Chains for Ethiopian Smallholders (LIVES), Technical Centre for Agricultural and Rural Cooperation (CTA), and Technical Consortium for Building Resilience to Drought in the Horn of Africa. Two blue arrows point from the text 'Two datasets at a time' to the 'Primary Dataset:' dropdown and the 'Secondary Datas' list.

Atmire listings and reports

The screenshot displays the Atmire Bibliography interface. At the top, a progress bar shows four steps: Load, Filters, Settings (which is the active step), and Download. Below this, the main content area is titled "Bibliography" and shows a list of entries. The first entry is "2013; Introduction to ILRI's 'big five' knowledge sharing and communication tools; Gashaw T, Yabowork A, Haile-Michael D." and the second is "2013; Using Dspace at ILRI; Ballantyne P, Yabowork A." Below the list, there are navigation buttons: "<< PREVIOUS STEP", "GROUP", "SORT", "LAYOUT", and "NEXT STEP >>". A second progress bar is located below these buttons, with the "d" step highlighted. Below the progress bar, there is a section titled "SELECT FILE FORMAT:" with the instruction "Please select a file format for your bibliography and press the download button below". A dropdown menu is set to "pdf". Below this, there is a "Show Bibliography Preview" link and a "DOWNLOAD PDF" button. At the bottom, there is a "SAVE CURRENT SETTINGS:" section with instructions and two "SAVE" buttons for different saving options.

8. New interface

Discovery

The screenshot displays the CGSpace website interface. At the top, the CGIAR logo and 'CGSpace Repository of agricultural research outputs' are visible. A navigation bar includes 'CGSpace Home', 'Welcome', and 'Login Register'. The main content area is divided into several sections:

- Welcome:** A paragraph describing the repository's purpose and its collaboration with various centers.
- Communities in CGSpace:** A list of communities with their respective collection counts, such as 'Africa RISING [221]' and 'AgriFood Chain Toolkit [87]'. A 'Select a community to browse its collections.' prompt is present.
- Search CGSpace:** A search bar with a 'Go' button and a 'Google Custom Search' widget with its own 'Search' button.
- Browse:** A section titled 'All of CGSpace Communities & Collections'.
- Discover:** A list of filters for discovery, including 'Author' (ILRI [1319], Grace, D. [347], etc.), 'Subject' (LIVESTOCK [1814], AGRICULTURE [1224], etc.), 'Date Issued' (2010 - 2014 [9610], etc.), 'Output Type' (Journal Article [9904], Report [2479], etc.), and 'Region' (AFRICA [6941], EAST AFRICA [4696], etc.).
- Recently Added:** A list of recent publications with details like title, author, date, and status. Examples include 'The future of food demand: understanding differences in global economic models' and 'Fertilizer use patterns in Yunnan Province, China: implications for agricultural and environmental policy'.
- Statistics:** A section for 'Most Popular Items'.
